

immediate results

There's now... then there's **right now.**

I *Products, solutions and technical services for the wireless, wireline, data centers and government markets – all delivered fast and with competitive prices.*

Reduce your costs with products from TelWorx

From next generation to legacy products, TelWorx can get you what you need – when you need it. Our global tracking systems can immediately locate even hard-to-find items. We are also a master distributor for a number of critical manufacturers and have dedicated inventories for fast lead times. You get what you need all in one place with TelWorx.

Supply Chain solutions that save you time and money

TelWorx works hard to understand and meet your demanding goals and objectives. We tailor our solutions to work seamlessly with your processes, so you can focus on your core business. Our solutions provide a one-stop shop for such services as: reverse logistics, lifecycle management, kitting, staging, stocking programs, spares and more. Whether it's outsourcing your RMA process or third party logistics, TelWorx gets it done right – now.

Technical Services delivered fast and professionally

TelWorx provides national technical services that includes everything from developing a scope of work to turn-key installations. TelWorx provides services for the wireless, wireline, data centers, government and enterprise markets.

TelWorx delivers solutions that meet your **business goals and objectives.**

We do what we say we will do.

- Commitment
- Follow through
- Sense of urgency
- Honesty

Flexibility.

We make doing business with TelWorx easy and pain free.

Immediate Results.

From questions, to quotes, to shipments, TelWorx delivers on it's brand promise of Immediate Results.

National Coverage.

- Asset documentation
- MOP (method of procedure)
- QA Services
- Logistics services

FTTx

Need equipment or support for your FTTx plans? TelWorx has you covered in all aspects of your FTTx deployment. Want to work with an experienced integrator that has been trusted by the National Smart Grid to deploy integrated cabinets nationwide? Call us today to help you save time and money in your deployments.

- Fiber jumpers and panels
- Reliable cabinetry
- Ethernet solutions
- PON solutions
- Installation

Ethernet Solutions

Are you deploying scalable and cost effective Ethernet solutions to your customers? Do you want to work with a partner that understands the challenges facing metro and long-haul carriers deploying Ethernet services? TelWorx is your one-stop shop for generating CapEx and OpEx savings up to 50%.

- Ethernet over Fiber or Legacy Copper
- Ethernet over PDH, SDH, DSL
- Ethernet over Microwave
- Ethernet Connectivity
 - Patch Panels
 - Cable Assemblies
 - Cable Management
 - Testing Equipment

Backhaul

TelWorx can help you determine the right backhaul solution that meets your needs today and your future scalability demands from the cell site or customer premises to the central office. The convergence of voice and data requires an understanding of yesterday's circuit switched network as well as tomorrow's 3G and 4G migrations. Contact TelWorx to help you identify your most cost-effective solution.

- ATM
- Gigabit Ethernet
- IP
- MPLS

Power

TelWorx has the muscle to power your network growth. Our professionals can execute power solutions to meet your entire infrastructure builds, and provide engineering services and installations nationwide.

- AC/DC power
- BDFBs
- Power plants
- Rectifiers
- Inverters
- Grounding
- UPS
- Generators
- Batteries
- Converters

RecoverWorx

TelWorx offers customizable disaster recovery solutions to meet carriers demanding requirements. Before a disaster strikes, TelWorx can put in place key elements of your recovery plan. TelWorx offers mobile towers and deployments, warehousing, staging, spares management and specialized labor for your remote and local markets. TelWorx has a suite of solutions that you can customize to get your network back up — and generating revenue.

With over 200 manufacturers, TelWorx has you covered.

Fiber Jumpers
• Large selection in stock
• 100% tested
• Telcordia GR-326 compliant
• Stock & custom assemblies
